### CANTINE DE LUCA

The .De Luca. brand tells a story of passion, tenacity and the desire to grow and achieve results, in a land that is both sweet and sour. It all started in 1994 when a man, Abramo De Luca, lover and curator of good wine and of his own land "Melissese", began to make wine with the grapes of his estates, rich in native vines, including the "Gaglioppo" and the "Greco Bianco ". Vines of very remote origins linked to the landing of the Greeks in the areas of southern Italy around the eighth century BC.

Together with the vines, Abramo De Luca followed historical winemaking traditions linked to the ancient method of growing "sapling" vines, a technique practiced by the ancient population of Bruzi in the third century BC.
