Monica di Sardegna is a very typical traditional grape and wine in Sardinia, Our Renarossa is produced near Cagliari where this variety has its perfect pedoclimatic environment. As all the Sardinia wines Monica has a typical aroma of Mediterranean herbs and red small fruits, at the palates round, complex and smooth. It should be stored in a cool, dark cellar, at constant temperature.

**VIGNETI ZANATTA**

It is in the Gallura area that Bruno Zanatta, a young winemaker from Treviso, began his career in 1975, developing a profound knowledge of the territory and the Sardinian land.

After thirty years, his now consolidated passion was transformed, with his children at his side, into what is now a real reality that extends over an area of 120 hectares: the family business was born.

In 2008 the production cycle was completed with the construction of the winemaking cellar. Dedication, experience and professionalism distinguish the daily and tenacious commitment of the company which offers refined wines, demonstrating how the marriage of two apparently distant lands gives life to a winemaking tradition of excellence.

Sardinia and Veneto: from the union of two lands rich in tradition and culture, expertly blended, a young winemaking reality is born: the "Vigneti Zanatta" company.
