On 29 September 2022, the first Prosecco DOC Trieste came to life from the depths of the sea, after 4 months of aging at a depth of 20 metres in the Gulf of Trieste. This is an unbelievable story, definitely worth telling. It all began when two long-time friends Luca Serena, owner of Serena Wines 1881 and Elena Parovel, owner of Parovel vigneti oliveti 1898, decided to emphasise the uniqueness of Prosecco DOC Trieste, of which the grapes are cultivated in the hills of Carso region not too far from the sea, by aging 14 casks of Prosecco in a small area of 67 square metres in the Gulf of Trieste, creating an underwater cellar and allowing the wine to age in an unspoiled environment. Cradled by the gentle waves of the sea, protected from the light and guarded by the fish, the wine was in the ideal place to give its best in terms of shining colour, captivating scents and unique flavours. In addition, the sea and its creatures have added their enchantment to the bottle with marine sediments to offer to us a Prosecco like never before.

SERENA

WINES 1881

Serena Wines 1881 is located in the heart of the Prosecco region, a stone's throw from Conegliano, to which it is closely linked, witness its historic residences dotting the gentle hills decorated by rows of vines that seem embroidered on the landscape. The business has always been run by the family, now by the fourth and fifth generations with Giorgio Serena and his son Luca Serena, today at the head of the company. The family can boast a tradition of over 100 years in the wine trade, a true passion for wine-making and a tenacious will in performing its daily duties. Over time, its observance of viticulture regulations has merged with innovation while never forgetting its strong roots in the Veneto region.
